

Dear Orca band community,

It is with mixed emotions that I announce my departure from Orca K-8 as the middle school instrumental music teacher. It has been a wonderful three years working with your children/students, and getting to know so many wonderful people.

After speaking with my wife at length about this potential shift in my life, we came to the conclusion that my time will be best spent focusing on my pursuit of a Masters degree in music education. This time away from teaching will aid in the completion of my Master's degree and in particular, my thesis.

Seattle is still a small city, and the music scene is smaller still! If you see me around town, please say hello!

All the Best,

Casey Cheever
